3 SOFA 2 update site.....	2

1. Binary packages

Currently SOFA 2 consists of two packages: **SOFA 2** itself and **Cushion**, which is a command-line tool for developing SOFA 2 components. Both of them are available from the [SOFA 2 Forge](#).

For controlling SOFA 2 application **Management Console** is provided. It is available from the [SOFA 2 Forge](#).

2. Source code

Source code of the SOFA 2 can be obtained from the [SVN repository](#).

3. SOFA 2 update site

SOFA IDE and MConsole can be installed via SOFA 2 update site located at <http://sofa2.ow.org/update-site>.
